## Have We the Goods You Want?

Every lady likes to trade where she can get a good assortment of merchandise to select from. We pride ourselves on having one of the largest lines of popular priced merchandise shown in this section. You who have a chance to see the many lines that are shown can tell very quickly whether we are right in our statements or not. The space we use for advertising is too valuable for us to use it for anything but real facts.

We are putting more time and study into this merchandise proposition than ever before, and the facts should be of mutual interest.

This cut represents one of our new Wooltex models.

### The Tailored Suit

If you are interested in the Tailored Suit for spring, you should come in and look over our new models. Nearly every express now brings us new models, both in Suits and Coats.

Every season we are apt to think that the new models are better than ever, and this season there is no doubt about this, as there is more of a variety of styles, and each model has a distinctive feature that is different.

We have a very good showing of these new models, and are anxious to show you the line. We would like to have you see them, even though you may not be ready to buy—it helps us to know what you think of the line.

While this spring's models are not so very much different than last spring's, we are sure you will say, with us, that you never saw so many real nobby models with features about each one that are different and very new.

We are showing a very good line of the Misses' Junior Suits, in models that are similar to the ladies'.

These are Suits that fit small women, as the skirts are shorter and are not much different than the ladies' models.

### Every Thing New

We have now on our racks one of the best and largest lines of new Spring Coats that we have ever shown as early as this in the season.

The Coats this spring are more attractive than any previous season for a number of years. There seems to be no limit to the variety of styles and cloths.

The individual touch of the different models will appeal to you as just a little different from the previous model, and still each model carries that degree of style that you can hardly decide which is the best.

The new materials, such as the Mixtures and Colored Novelty Cloths, have a certain amount of style that adds immensely to the jaunty style of the Coats.

The Whipcords are a material that carries a certain amount of style, and are a cloth that will wear and keep their shape as well as any material you can buy.

### New Spring Kinds at New Prices

More new styles this spring than for the last three years. Trade all over the country was light through the winter. Manufacturers had time to get out new designs. Then, again, it had become necessary to have new kinds in order to get trade to buy as in past seasons. In doing this, they have all outdone themselves. The results are that we can show you a beautiful line of Easter styles in all kinds of Dry Goods and Trimmings.

Yard-wide Wash Silks at 39c per yard in all the new colors.

Dotted Silks as low as 19c in all colors.

Eighteen-inch Foulard Silks in plain and figured, now at 49c per yard.

One lot of Black Messaline, nearly one yard wide, at 87c per yard. A saving here.

Serges, serged and shrunk, for 75c, \$1.00 and \$1.25.

Navy and Black Wool Voiles, very fine, at \$1.00. Black Silk Serge, a sample piece, \$2.00 value, as a special at \$1.25 per yard. Ask to see this new cloth.

If you want a good Wash Dress in Misses' sizes from 6 to 14 years, see the line we are showing, ranging in price from 59c to \$2.00 each.
